ESPER AWARDS

AGORA

Best Research Team of the Year

Submission Guidelines

- Deadline for submission: 11.30.2026

Research Report

- PDF format only, uploaded directly to your team's Google Drive folder.
- The file name of the pdf should be as follows: AGORA_SchoolName_TeamNumber.pdf (the there are multiple teams from a single school, then those teams must have self-assigned a team number for themselves starting from 1)
- All data must be accurate, verifiable, and ethically sourced.
- A References section must be included, listing all sources used (books, articles, websites, interviews, etc.)
- Plagiarism, data fabrication, or uncited AI-generated content will result in immediate disqualification.

Presentation

- Each team must create a video presentation summarizing their research and findings.
- The duration of the video must not exceed 10 minutes.
- Upload directly to the same team Google Drive folder. And a link of the video must be entered to the submission form provided by us.
- Any presentation or editing software may be used (e.g. PowerPoint, Canva, OBS, CapCut, etc...).
- AI-generated presentations will result in immediate disqualification.
- By submitting, the team agrees that the Video and the pdf may be shown, published, or promoted by the organizers.

The folder link must be set to "**Anyone with the link**" with fully unrestricted access so the judges can open it instantly. Ensure there are no file restrictions or access permissions required to view or download the files.

ESPER AWARDS

ALGORITHMOS

Edu Coder of the Year

Competition theme:

- **Background Scenario:**

Imagine you're joining the tech team at EcoSpark Innovations, a young startup that makes fun, smart tools for classrooms and local offices. Because the team is growing fast, things are getting a little chaotic! Equipment like projectors, laptops, and lab tools are constantly being moved around without anyone knowing who has what. On top of that, team members are storing project files, design notes, and guides all over the place, making it a pain to find what they need.

- **Your Goal:**

As part of EcoSpark's technical team, your challenge is to design and build a simple, easy-to-use company website that acts as an internal hub for the staff. The goal is to make daily operations smoother so everyone can easily check available gear and keep company files organized.

ESPER AWARDS

ALGORITHMOS

Edu Coder of the Year

- **What Your Website Needs to Do:**

1. **Track Supplies & Gear:** Build a simple visual inventory page where staff can quickly see what items are available, search for specific equipment, and check if an item is currently "Available" or "In Use".
2. **Organize Files & Documents:** Create a neat, folder-like structure or page where team members can view, search, and categorize important company files or project documents.
3. **Keep It Clean & Usable:** Focus on making the layout clean, responsive, and intuitive so any team member can jump on and start using it right away.

Eligibility:

- Open to school students (Grades 6–13) from recognized schools.
- Each team may consist of a maximum of three (3) members. Individual participation is also permitted.
- Each school can have up to 2 teams.

ESPER AWARDS

ALGORITHMOS

Edu Coder of the Year

Submission Guidelines:

- Deadline: 11.30.2026

Website

- All project source files, assets, and folders must be uploaded to a public or accessible GitHub repository.
- The link to the GitHub repository must be provided upon submission.
- The GitHub repository must include a text file (README.txt or README.md) in the root directory. This file must contain clear, point-by-point setup instructions explaining how to open, install dependencies (if any), and run the website locally.
- The website must be hosted online by the team itself.
- Any GitHub commits after the submission deadline will lead to immediate disqualification.

Presentation Video

- The video should include:
  - Introduction of team and school
  - Introduction of their software
  - Explanation of features and workflow
  - Demonstration of the software in action
- Both the completed 10-minute video and the video script (as a PDF) must be uploaded to Google Drive (placed within a single shared folder or as separate files under the same shared folder link).

ESPER AWARDS

ALGORITHMOS

Edu Coder of the Year

- Change the General Access settings of the file/folder from **"Restricted"** to **"Anyone with the link"** to ensure the organizing team has full access to view and download both assets.
- **File Naming:** ALGORITHS_Schoolname_TopicNo

Final Submission Checklist

Submit the following items through the official submission form provided by the organizers:

1. Live Hosted Website Link (self-hosted by the team)
2. GitHub Repository Link (with mandatory README.md/README.txt and strict pre-deadline commits)
3. Google Drive Link (containing both the 10-minute video and the video script PDF, with **"Anyone with the link"** permissions enabled)

Evaluation Criteria

- **Innovation & Creativity:** 25%
- **Functionality & Usability:** 25%
- **Scenario Relevance:** 25%
- **Presentation & Documentation (GitHub/Setup/Video):** 25%

By submitting, the team agrees that the source code, video may be shown, published, or promoted by the organizers.
